ONEYCMBG19469900	10	ONE	Cochin (INCOK1)	CTL LOGISTICS INDIA PVT LTD	SM MANALI V 074	26/09/2026	CSN cut-off over / CSN filed after the line's manifest (SAM) - CUT OFF TIME OVER	13	Still pending: 1 CSN on record · no house bills under any of them. SCMTR.io's reading: We can see what has happened here. The only CSN customs holds for this bill is the line's own straight one, and that is what the line's manifest quotes; the CSN with your house bills is not on customs' record, so they never reached the IGM. This is a known situation and it can be put right. It takes a specific amendment from the line's side, and once the vessel has entry inward it also needs customs' say-so. SCMTR.io has the record and can take this up with you and the line.	08/10/2026, 22:24 IST

SCMTR.io's reading: Your CSN with the house bills is on customs' record. The line's manifest still quotes the line's own straight CSN instead, so the house bills have no IGM line yet. The record itself shows your CSN is there, which is the strongest position to be in. It can be put right from the line's side, with customs' say-so once the vessel is inward. SCMTR.io can take this up with you.	08/10/2026, 22:24 IST
SSLSHMAACAD1281A	11	SAMUDERA SHIPPING	Chennai (INMAA1)	Kuehne + Nagel Pvt. Ltd. / Ceekay Logistics Pvt Ltd	SINAR SIANTAR / 095E	01/10/2026	Line not filing the amendment (SAA) - We have filed CSN but ISO code has been wrongly filed under CSN and carrier does not merch our CSN they have filed on MBL, 07th Oct 26 we have delete our CSN and infirm carrier to filed all HBL under SAA.	8	Still pending: 1 CSN on record · no house bills under any of them. SCMTR.io's reading: The reason says the CSN went in with a wrong ISO code. Customs' record at Chennai does not hold a CSN with your house bills at all - only the line's straight one - so the CSN with the house bills has not been accepted yet; that comes first, and the line's amendment after it. Customs' Advisory 38/2026 has since taken the container ISO check off the CSN. SCMTR.io can read the acknowledgement with you and follow both steps on the record.	08/10/2026, 22:24 IST
ONEYHAMG38238600	48	ONE	Nhava Sheva (INNSA1)	DACHSER India Private Limited / Ceekay Logistics Pvt Ltd	HMM TACOMA 138E	08/10/2026	Something else - IGM filed on MBL we are unable to filed CSN we have geting error only "Rejected"	1	Still pending: 1 CSN on record · no house bills under any of them · inward 08/10/2026. SCMTR.io's reading: The reason says the CSN keeps coming back "Rejected". Customs' record holds only the line's straight CSN, so the 48 house bills have not reached customs at all yet - the refusal carries a specific reason in the acknowledgement, and it can be read and put right. Once the CSN is accepted, the line's amendment follows. SCMTR.io's free file check reads the exact reason from the file and the reply.	08/10/2026, 22:24 IST

SCMTR.io's reading: Your CSN with the eight house bills is on customs' record - the MLO code the reason mentions did not stop its acceptance, and can be corrected by an amendment on your side. The line's manifest still quotes the line's own straight CSN, so the house bills have no IGM line yet; that is the line's amendment, with customs' say-so now the vessel is in. We submitted the JSON file, however, the acknowledgment was not received within the timeframe.	11	Partly linked: 2 CSNs on record · 0 of 6 house bills on the IGM · inward 28/09/2026. SCMTR.io's reading: The reason says the acknowledgement never arrived. Customs' record holds your CSN with all six house bills, so it was accepted - the acknowledgement can be recovered from the record itself. The line's manifest still quotes its own straight CSN, so no house bill has its IGM line yet; that part is the line's amendment to make, with customs' say-so now the vessel is in. SCMTR.io can recover the CSN number for you and take the amendment up with the line.	08/10/2026, 22:23 IST
SHACB26038317	1	RCL	Chennai (INMAA1)	GREENWICH MERIDIAN LOGISTICS INDIA PVT LTD	SNL HAIKOU 2607W		CFS bond / PAN missing - cargo held - LINER PAN NO IS WRONGLY FILE IN IGM - BASED ON THAT CFS UNABLE TO PROCESS THE PNR MOVEMENT 10 DATS HAS BEEN COMPLETED STILL THE PROCESS IS NOT YET SOLVED	1	Linked on customs' record: 2 CSNs on record · 1 of 1 house bills on the IGM · inward 25/09/2026. SCMTR.io's reading: The reason says the line's PAN was filed wrongly on the IGM, so the CFS cannot move the cargo. Customs' record at Chennai shows the house bill linked on the IGM, so the split-up itself is not the problem - the PAN on the line's manifest is, and that is the line's amendment to make. It is a known situation and it can be handled from the line's side; SCMTR.io can take it up with you and the line.	08/10/2026, 12:12 IST
KMTCSHKB092300	1	KMTC	Chennai (INMAA1)	GREENWICH MERIDIAN LOGISTICS INDIA PVT LTD	WAN HAI 501 E268	27/09/2026	LCL amendment (SCA / SAA) pending - PORT CODE WRONGLY FILED IN CSN FILE - 10 DAYS HAS BEEN COMPLETED STILL AMENDMENT IS NOT YET COMPLETE	12	Linked on customs' record: 2 CSNs on record · 26 of 26 house bills on the IGM · inward 27/09/2026. SCMTR.io's reading: The reason says the CSN went in under the wrong port code. Customs' record at Chennai already shows this bill with every house bill linked on the IGM - 26 of them, on the CSNs it holds there. If your own CSN was filed under another port, it is not among those and sits where it was filed; the record here shows the cargo itself is through. Worth confirming with the line which CSN the manifest took, and this row can be closed once that is clear. SCMTR.io can read both records with you.	08/10/2026, 12:12 IST
272932743	2	Maersk	Ennore (INENR1)	GREENWICH MERIDIAN LOGISTICS INDIA PVT LTD	SAN FELIPE 633E	20/10/2026	LCL amendment (SCA / SAA) pending - PORT CODE WRONGLY FILED IN CSN - 16 DAYS HAS BEEN COMPLETED STILL PORT CODE AMENDMENT PROCESS IS NOT YET COMPLETE	1	Partly linked: 1 CSN on record · 0 of 2 house bills on the IGM. SCMTR.io's reading: The reason says the CSN went in under the wrong port code and its correction is still in process. Customs' record at Ennore holds a CSN with the two house bills, neither on the IGM yet - the ship is not due until 20 October, so nothing is overdue on the record itself. The correction is the usual way through and it can be handled; SCMTR.io can read the record with you once the vessel is in and tell you where it stands.	08/10/2026, 12:12 IST

SCMTR.io can help you get it there and follow it through.	08/10/2026, 18:02 IST

Pls advise what is the role of NHV customs here ? We filed from Mumbai is this so ? Pls advise us the solution on this as days are passing with no result and container incurring detention , port storage etc etc	21	Linked on customs' record: 2 CSNs on record - 1 of 1 house bills on the IGM - inward 18/09/2026. SCMTR.io's reading: On customs' record this one is linked: your CSN carries the house bill and it has its IGM line. The container hold for the CFS bond or PAN is a port and CFS matter the public record does not show; with the IGM line in hand it is a conversation you can have today. SCMTR.io can help with it. The row stays pending until you or SCMTR.io staff mark it resolved.	08/10/2026, 12:03 IST

ONEYANRG15974300	23	ONE	Chennai (INMAA1)	Not named in the sheet	SM MANALI	19/09/2026	Reason not given yet	20	Still pending: At Kattupalli (INKAT1), not the port listed · 1 CSN on record · no house bills under any of them. SCMTR.io's reading: Listed at Chennai, but customs holds this bill at Kattupalli (INKAT1), where the ship discharged - and the record there is the usual pending picture: the only CSN is the line's own straight one, which the line's manifest quotes, and the CSN with your house bills is not on record. So this is the known situation, at the neighbouring location. It can be put right from the line's side, and with the vessel already inward it also needs customs' say-so. SCMTR.io has the record and can take this up with you and the line.	08/10/2026, 18:02 IST

HLCUHAM2607BGLK9	19	Hapag-Lloyd	Kolkata (INCCU1)	Not named in the sheet	IMKE SCHEPERS	27/09/2026	Line not filing the amendment (SAA) - Manifest filed on Master - Hapag not supporting to files SAA	12	Still pending: 1 CSN on record · no house bills under any of them · inward 29/09/2026. SCMTR.io's reading: We can see what has happened here. The only CSN customs holds for this bill is the line's own straight one, and that is what the line's manifest quotes; the CSN with your house bills is not on customs' record, so they never reached the IGM. This is a known situation and it can be put right. It takes a specific amendment from the line's side, and once the vessel has entry inward it also needs customs' say-so. SCMTR.io has the record and can take this up with you and the line.	08/10/2026, 12:03 IST
